

THE FORGOTTEN ART OF DANDELION CHAINS

You can do these with any flower, but dandelions are the best choice because there are so many of them!
(Daisies are okay too!)

~ Make a dandelion octopus! ~

Blow the fuzz off and split the stem with your fingernail.

drop it in a puddle and watch what happens!

Wear 'em on your head ~ around your neck ~ give one to a friend!

Tie the ends together with strong grass. Break off any stems that are too long.

These activities complement the ELF workshop Dandelions.
